

APPLICATIONS:

- HDTV, Plasma & LCD Screens
- Satellite receivers & digital DVD players
- Home theater systems & digital set-top boxes
- High resolution computer flat panel monitors
- Windows™ Media Center PC's
- Digital projectors

Extends DVI up to 330ft! It is plug & play, no software to install and uses hybrid fiber optic cabling that exceeds the performance of any copper and silver-coated cables. With built-in transmitter and receiver into the cable, it actively regenerates the signal to ensure clear and sharp images. Support up to 1600x1200 for PC applications and up to 1080p for HDTV.

DVI FIBER EXTENDER CABLES

	DVI EXTREME FIBER MALE/MALE CABLES UP TO 80,000 HOURS	DVI FIBER MALE/MALE CABLES UP TO 40,000 HOURS

* The "DVI Extreme Fiber" cable not only offer superior reliability and provide up to 80,000 hours of continuous usage, it also have a crash-proof connectors that is perfect for A/V installations and trade show usage.

DVI ACTIVE REPEATER WITH HDCP

Extend your HDTV/HDCP signal up to 300ft. This repeater cascades up to 3 level & regenerates the signal to ensures clear and sharp image. Support HDTV's 480p, 480i, 720p & 1080i and up to 1600x1200 PC resolution.

A special cable with built-in power connector allows you to power the repeater near the video source instead of the middle of the run where power port may not be available.

SPECIFICATIONS:

- Input / Output Connectors: Single Link DVI-D Male
- Max Resolution: PC: Up to 1600x1200 @ 60Hz (UXGA)
HDTV: 480i, 480p, 720p, 1080i, 1080p
- Bandwidth: 1.65Gbps
- Max Distance: PC: Up to 150 Meters
HDTV with HDCP: Up to 100 Meters
- Compliance: HDCP, DVI 1.0, DDC2B, FCC / CE
- Cable Characteristics: Hybrid H-PCF Multi-Mode (CL3)
850nm VcseI
- Power Consumption: Transmitter (0.61 Watts)
Receiver (0.83 Watts)
- Power Requirement: +5v 500mA thru DVI Port's
(Optional power adaptor can be order if power is not available at the DVI Port or when doing ADC to DVI conversion.)

DVI TO HDMI SWIVEL FLEXIBLE CONNECTOR:

This patent-pending unique and flexible connector allows an adaptor or cable to transform into a right-angle or left-angle without having any effect on its performance. It is perfect for wall-mount panel installations and other tight areas.

This connector is available in following configurations: a) Adaptors - DVI Male/HDMI Female, DVI Female/HDMI Male; b) Cables - HDMI Male/DVI Male, DVI Male/DVI Male.
