

## APPLICATIONS:

- HDTV, Plasma & LCD Screens
- Satellite receivers & digital DVD players
- Home theater systems & digital set-top boxes
- High resolution computer flat panel monitors
- Windows™ Media Center PC's
- Digital projectors

HDAV cables and adaptors production process uses laser jacket stripping & aluminum foil cutting with precise machine soldering. It is lead-free and toxic-free cables and HDCP compliant.

HDMI & DVI connections provide crystal-clear, high definition digital video but HDMI have an integrated multi-channel digital audio.

## DVI ACTIVE REPEATER WITH HDCP

Extend your HDTV/HDCP signal up to 300ft. This repeater cascades up to 3 level & regenerates the signal to ensures clear and sharp image. Support HDTV's 480p, 480i, 720p & 1080i and up to 1600x1200 PC resolution.

A special cable with built-in power connector allows you to power the repeater near the video source instead of the middle of the run where power port may not be available.
